

63 mm Business Card CD Laser Template

Data Capacity: 60 mb

Label Dimensions
78 mm X 61 mm
Center Hole: 17 mm

For A Quality Print **Art Must Be 300 dpi** or Higher

1. If you are working with a layered program please place your art on a layer named "Art Here".
2. The **Blue** line is the **print area** of the final product.
This is the finished size of your print job.
3. The **red** line is the **text edge**. Keep all text and important logos within this boundary.
Anything outside this boundary may be cut off in the final printing.
4. The **green** line is the **bleed line**. Your art **MUST** extend out to this **green line**.
5. Please Outline, Render, or provide the font for all of your text.
If we do not have a font we can not print or set up your art unless we change the font.
6. Be careful **not** to merge the template to the art.
If you can not hide the template lines, we can not hide them and they will print on your project
7. For any **questions** at all, do not hesitate to **call** your **sales representative**.
